

# HARVEY JACOBS

THE COMMON SENSE CANDIDATE

FOR MD DELEGATE DISTRICT 15

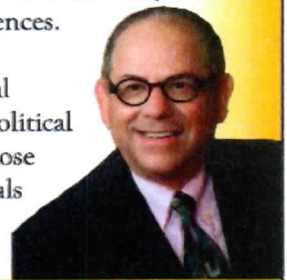

**Harvey seeks to be your delegate to the Maryland House of Delegates for Legislative District 15 to bring common sense to Annapolis.**

**TRAFFIC:** The roads in our District have been allowed to deteriorate to an unacceptable level. Simple steps like high-quality paving, state-of-the-art reflective painting, and clear directional signs will go a long way to improving our quality of life.

**SCHOOLS:** The Montgomery County Public School system operating budget for 2018 is a staggering \$2.5 billion! That works out to \$15,604 per year per student. The State's contribution is only 27%. Are we getting our money's worth? As your District 15 Delegate, Harvey will bring more of your taxes back from Annapolis and into the pockets of your classroom teachers!

**REGULATION:** The Nanny-State regulations at ALL levels are choking small-business owner's incentive. Before we pass any new regulations, we must analyze the intended and unintended consequences.

**REDISTRICTING:** Today's political polarization is the direct result of political gerrymandering. Voters should choose their elected officials; elected officials should not choose their voters.
